

## Getting control of money when you HAVE money

1. Develop the right mentality for handling money. You can't just hire someone else to do it for you unless you give up control. Money problems amongst high earners are not usually money problems: They are communication problems, relationship problems, psychological problems.
2. Force yourself if necessary to limit your access to your money. For example, if you own an expensive house, don't necessarily sell it to move into a cheaper one because you'll may just end up spending the difference and then you won't have it at all.
3. Break down the task of handling your money into smaller pieces: goal setting, budgeting, bill paying, investments, portfolio review, etc.
4. Pay yourself first
5. Listen to Goldstein On Gelt interview with Suze Orman:
